Diploma in Business and Law, The University of Huddersfield, England, United Kingdom | 2015

PORTFOLIO PROJECTS

- **My Portfolio**

[GitHub](#)

JavaScript | HTML | CSS

[Live Project](#)

Objective: Showcasing a Frontend Developer's Skills and Projects "My Portfolio" is a visually appealing and mobile-responsive website that presents Aaron July's frontend development skills and projects. With an interactive layout and smooth navigation, the site highlights my expertise in HTML, CSS, JavaScript, and more.

- **My Drum-kit Project**

[GitHub](#)

JavaScript | HTML | CSS

[Live Project](#)

Objective: Created drum noises on key press with CSS transitions and animations for user interactivity. Completed during early JavaScript learning, challenges included HTML audio API and DOM element selection using the date-key attribute.

- **Simon Game**

[GitHub](#)

JavaScript | HTML | CSS | jQuery

[Live Project](#)

Objective: Developed a pattern-matching game where users repeat the shown pattern. Each round adds a new step, increasing difficulty. Unique sounds for each activated field, and it is mobile-responsive. The game is live at the provided URL.

- **Rentifax**

[GitHub](#)

JavaScript | HTML | CSS

[Live Project](#)

Objective: This code is an example of a sales website using HTML, CSS and JavaScript. It includes the use of Bootstrap for the layout and responsive design, Google Fonts for typography, and Font Awesome for icons. The page includes a navigation bar with links to the homepage and other pages on the website.

- **Digital Clock**

[GitHub](#)

JavaScript | HTML | CSS

[Live Project](#)

Objective: The Digital Clock Webpage Project is a mobile-responsive web application that brings a sleek and functional digital clock to life. Created as a showcase piece within my portfolio, this project underscores my proficiency in front-end web development, encompassing HTML, CSS, and JavaScript.
